

## INDEPENDENT MORTGAGE LENDER

# COMPENSATION SURVEY

### REGIONAL & LOCAL MARKETS COMPARISON

Our analysis includes information based on your most comparable regional area, resulting in data that is valuable and relevant to your business. This allows you to see if your compensation packages are competitive in your local markets, not simply the national averages.

### SPECIFIC TO MORTGAGE BANKING

We cover over 150 job titles specific to mortgage banking.

### DYNAMIC

The survey data is displayed on an interactive dashboard, allowing participants to drill down on a variety of geographic markets and other criteria to offer multiple perspectives. The entire data set can be exported to Excel for further analysis.

### CONVENIENT

Most compensation surveys require you to fill out long questionnaires or sift through payroll documents to find the required data. As a participant in the Richey May program, you simply send us data files from your company's payroll system and we extract all necessary information to conduct the analysis.

### COMPETITIVE PRICING

Our fees include compensation data for all mortgage banking titles and departments, making our survey the most affordable survey specific to mortgage banking. Participants can purchase a one-year license to the dashboard. **Current Richey May Select clients are eligible for discounted pricing.**

### PAST PARTICIPANTS

The identity of participating lenders remains completely confidential. Based on past years, the number of participants usually includes 25-30 independent lenders, translating to over 10,000 unique mortgage banking jobs for benchmarking against.

### HOW TO PARTICIPATE

**Send a data file export from your payroll system** with the following fields for 2021:

- Department description
- Job title
- All pay codes & types (including annual salary rates and hourly rates, if possible)
- Start/hire and termination dates
- Full-time or part-time status
- Geographic location (zip code if possible; city, state otherwise)

**Schedule a brief call** with Richey May to review the job title & pay code mapping.

**Set up your confidential account** and begin using the dashboard to benchmark compensation across a wide variety of geographic regions, peer criteria and much more.
