

# Access allocators focused on digital assets

## CIG x Richey May

### About Crypto Insights Group

CIG is the leading meeting point between liquid funds and allocators. The CIG Portal provides institutions the tools and analytics they need to better understand fund managers, operational diligence, and employ their standard of risk management in digital assets.

### How CIG Supports Fund Managers

#### Access Capital Allocators

Family offices, fund of funds, multi-managers, foundations and many other allocators trust CIG to access high quality fund managers.

#### Index and Benchmarking Data

Peer group analysis with risk-adjusted analytics, including data from leading benchmark providers.

#### Operational Diligence

CIG's team includes a Head of ODD, guiding fund managers on operational best practices.

#### Factsheets & DDQs

Access collateral to help your fund grow and to put your best foot forward in growing your business.
